Ginger & Turmeric Focus | Bulk Supply | Export Documentation Support | OEM / Private Label.

VIET LINH AGRICULTURE MANUFACTURING EXPORT IMPORT & TRADING COMPANY LIMITED

COMPANY SNAPSHOT

Viet Linh Agrimex is a Vietnam-based supplier and export-coordination partner for agricultural products, spices, fresh fruits, processed products and plant-based ingredients serving B2B customers.

We support importers, distributors, food manufacturers, F&B brands, OEM / private label partners and sourcing companies with product selection, clear specifications, flexible packing and transparent documentation.

Viet Linh Agrimex was built with the direction of bringing the essence of Vietnamese agricultural products to the world, developing supply from key raw-material regions and delivering consistent-quality products to international B2B supply chains.

We develop supply chains from key raw-material regions, integrating pre-processing systems, warehouses, packing facilities and logistics in Vietnam to control input quality, product specifications and delivery schedules for global buyers.

Our portfolio focuses on ginger, turmeric, spices, cashews, fresh tropical fruits, processed fruit products, fruit powders, botanical extract powders and OEM / private label cooperation.

With the business principle of Prestige, Quality and Efficiency, Viet Linh Agrimex aims to become a long-term supply partner for importers, distributors, food manufacturers and international brands.

ABOUT VIET LINH AGRIMEX

WHY CHOOSE VIET LINH AGRIMEX

B2B buyers need more than a price list. Viet Linh Agrimex supports buyers with focused sourcing, clear product parameters, suitable documents and practical commercial response.

SUPPLY SOURCE

Vietnamese agricultural supply chains are developed from key raw-material regions, focusing on ginger, turmeric, spices, cashews, fresh fruits, processed fruit ingredients and botanical extract powders.

PARAMETER

Export-oriented product specifications covering moisture, admixture, density, mesh size, size grade, packing format and buyer-specific documentation.

QC

Quality control before shipment for appearance, moisture, impurities, microbiology, heavy metals, residue and product-specific requirements.

LOGISTICS

Ability to arrange market-required certificates and documents by shipment, including HACCP, ISO 22000, HALAL, FDA-related support, GlobalGAP-oriented documents, COA, Phytosanitary Certificate

B2B

Flexible cooperation through bulk supply, sample support, custom packing, FOB / CIF / CFR quotation and OEM / private label models.

KEY RAW-MATERIAL REGIONS & SUPPLY CHAIN

Viet Linh Agrimex develops sourcing connections across key agricultural regions in Vietnam to support stable supply for B2B orders.

Viet Linh Agrimex's key raw-material regions are concentrated in the Northwest and the Central Highlands - areas with strong advantages in climate, soil conditions and output for ginger, turmeric, spices, herbs, fresh fruits and selected tropical agricultural products. From these regions, Viet Linh Agrimex controls the process from raw-material selection, pre-processing, drying where applicable, grading, packing to document preparation for each order.

Key raw-material regions: Northwest - nearly 50,000 ha; Central Highlands - over 30,000 ha.

QUALITY MANAGEMENT SYSTEM

Quality consistency is the foundation of our B2B supply process.

Viet Linh Agrimex applies quality control across raw-material selection, pre-processing, drying, production coordination, packing and shipment preparation. The company's pre-processing and processing equipment system includes multiple units for cleaning, grading, drying, milling, sieving, metal detection, blending and packing. A key component is the ginger drying system at the Ke Sat warehouse in Hai Phong City, supporting better control of moisture, color, aroma and output uniformity according to B2B requirements.

QC FLOW:

- 8 Additional technical files and certificate support arranged by shipment when required by buyer or destination market

“

Viet Linh Agrimex supports international buyers with transparent export documentation and flexible shipment arrangements. Depending on product type, destination market and buyer requirements, each shipment can be supported with technical and commercial documents for B2B import procedures.

TRADE TERMS:

FOB | CIF | CFR according to product, route and commercial agreement.

SPICES & AGRICULTURAL INGREDIENTS

Viet Linh Agrimex develops a focused spice and agricultural-ingredient portfolio for importers, distributors, spice brands, food manufacturers and industrial ingredient buyers.

Ginger:

Fresh ginger, dried ginger, sliced ginger, ginger powder and ingredient-oriented formats.

B2B Application:

Spice import, tea, food processing, seasoning, extraction and OEM ingredient

Turmeric:

Fresh turmeric, dried turmeric, sliced turmeric, turmeric powder and curcumin-oriented ingredient solutions.

B2B Application:

Industrial ingredient, spice blends, wellness food, beverage and extract-oriented applications.

Black pepper:

Black pepper grades and packing formats prepared according to buyer requirements.

B2B Application:

Spice brands, seasoning manufacturers, wholesale importers and food processors.

Cashews:

Vietnam-origin cashew kernels and related formats according to buyer grade and packing needs.

B2B Application:

Snack brands, food service, retail packs, bakery and ingredient buyers.

Cassia cinnamon & star anise:

Sticks, broken, cut, powder or whole-flower formats depending on product line.

B2B Application:

Spice retail, food manufacturing, extraction, tea, seasoning and Middle East spice trade.

Selected agricultural ingredients:

Additional spices and agricultural ingredients can be sourced or developed by buyer request.

B2B Application:

Import trading, industrial ingredients, food manufacturing and OEM

Ginger and turmeric are positioned as long-term core products. Other trading product lines include black pepper, cashews, cassia cinnamon, star anise and selected Vietnamese agricultural ingredients according to buyer requirements.

Detailed parameters such as grade, moisture, density, cut size, active-compound targets, packing and certificates are aligned by product, order and batch documentation.

FRESH FRUITS

Viet Linh Agrimex supplies selected Vietnamese tropical fruits for wholesale importers, distributors, supermarket channels and food service buyers. Fresh fruit sourcing focuses on suitable maturity, export-grade appearance, size classification, packing format and shipping method selection.

GlobalGAP-oriented documentation, COA and Phytosanitary support can be arranged according to product, farm source, market and shipment requirements.

SEEDLESS LIME

Uniform size, green skin, export packing according to buyer market.

DRAGON FRUIT

Red or white flesh, size grading, export appearance and carton packing.

COCONUT

Fresh coconut, peeled coconut or packed format according to buyer demand.

LYCHEE

Export-grade selection, uniform fruit, seasonal premium supply.

Viet Linh Agrimex's pre-processing and processing capabilities are built on a diversified equipment system serving cleaning, grading, drying, milling, sieving, metal detection, blending and export-oriented packing. The ginger drying system at the Ke Sat warehouse in Hai Phong City is an important component, supporting moisture, color, aroma and output-uniformity control. Depending on product type and production plan, the process may combine freeze-drying, vacuum drying, hot-air drying, extraction and concentration, spray-drying, milling, sieving, metal detection, blending and automatic packing.

PRE-PROCESSING, DRYING & VALUE-ADDED INGREDIENTS

“

Viet Linh Agrimex develops pre-processing, drying and value-added agricultural products for food brands, F&B manufacturers, nutraceutical companies, retail chains and OEM / private label partners.

Our product lines include dried ginger / ginger ingredients, freeze-dried fruits, soft dried fruits, fruit powders, botanical extract powders and ready-to-pack snack solutions.

Technical Positioning:

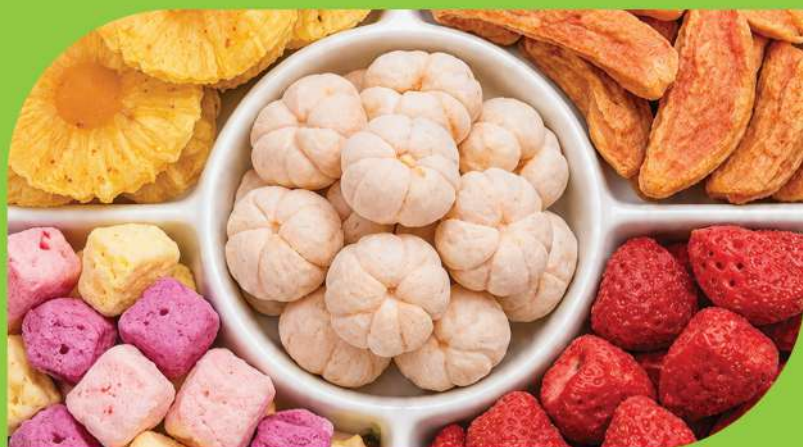

Low-moisture, crisp texture, natural color and aroma retention.

Packing:

18g / 35g pouches, OEM packs, export cartons.

Applications:

Premium snack, gifting, retail chain, travel retail.

SOFT DRIED FRUIT

Technical Positioning:

Soft texture, controlled moisture, natural fruit appearance.

Packing:

250g / 500g / 1kg / 5kg / 20kg bulk or retail packs.

Applications:

Snack brand, F&B, private label, gift packs

FRUIT POWDER

Technical Positioning:

Fine powder, good dispersibility, moisture and mesh size controlled by product.

Packing:

Sample packs, retail jars or 25kg industrial cartons.

Applications:

Instant drinks, bakery, confectionery, F&B, FMCG.

BOTANICAL EXTRACT POWDER

Technical Positioning:

Ginger, turmeric, artichoke, pennywort, gac and other botanical ingredients.

Packing:

Industrial packs, OEM / white label formats.

Applications:

Functional drinks, nutraceutical, supplement, food ingredients.

OEM / PRIVATE LABEL & B2B COOPERATION

Bulk Supply

Suitable for importers, distributors, food factories and industrial ingredient buyers. Products can be packed in bags, cartons, drums or customer-specific bulk formats.

OEM Private Label

Suitable for retail brands, snack brands, healthy food brands, gift products and e-commerce channels. Pouch size, jar size, labels and cartons can be customized.

R&D Sample Support

Samples, product specifications, COA and quotation support help buyers evaluate products before purchase order confirmation.

Viet Linh Agrimex supports flexible cooperation models from bulk ingredient supply to finished private-label products.

Our B2B team can support product specifications, sample preparation, packing consultation, quotation, technical documents and shipment planning for each target market.
